

A Pelvic finite-element assembly & soft tissues

- Anterior SIJ lig.
- Posterior SIJ lig.
- Interosseous SIJ lig.
- Sacrospinous lig.
- Sacrotuberous lig.
- Pubic ligaments

B₁ Inlet plane (superior view)

- Pelvic Inlet Diameters**
- Conjugata vera (AP): 123 mm
 - Transverse diameter (ML): 131 mm

B₂ Outlet plane (inferior view)

- Pelvic Outlet Diameters**
- Biischiadic diameter (BIS): 103 mm
 - Bituberous diameter (BIT): 132 mm

Habitual Locomotor Loads (Standing)

- Bilateral standing**
- 2 × 400 N vertical**
- Acetabular notches

- Unilateral standing**
- 1 × 800 N vertical**
- Right acetabular notch

Parturition-Motivated Proxy Loads (Birth Canal Transit Stages)

- Inlet ring expansion**
- ±400 N lateral**
- Iliopectineal inner ring

- Tuberosity distraction**
- ±400 N lateral**
- Ischial tuberosities/spines

- AP outlet distraction**
- ±400 N anteroposterior**
- Pubic crest & SCJ
